

# M17 to M58 circular connectors

Product overview 2024

# M17 to M58 circular connectors

As a specialist in the field, Phoenix Contact offers circular connectors from M5 to M58 – the largest range of robust circular connectors on the market, from small to large, straight or angled, for signals or power, molded or designed for assembly on site. These products have been tried and tested over many years, in various fields – industrial automation, electrical drive technology, and in infrastructure applications.

## SIGNAL

Signal connectors  
up to 19-pos.

- 6- to 19-pos.
- Sizes M17 and M23
- All housings can be fitted with pin or female contacts
- EMC protection
- IP67 degree of protection
- Plastic-molded designs

 **Web code:** #0253

### Find out more with the web code

For detailed information, use the web codes provided in this brochure. Simply enter # and the four-digit number in the search field on our website.

 **Web code:** #1234 (example)

Or use the direct link:  
[phoenixcontact.com/webcode/#1234](https://phoenixcontact.com/webcode/#1234)

## ■ HYBRID

### Hybrid connectors up to 70 A/850 V DC/630 V AC

- Transmission of signals, data, and power in a single connector
- Sizes M23 and M40
- CAT5 interface, alternative: four additional signal contacts
- Connection cross-sections up to 16 mm<sup>2</sup>
- Up to 70 A and 850 V DC/630 V AC
- Plastic-molded designs

**i** Web code: #0254

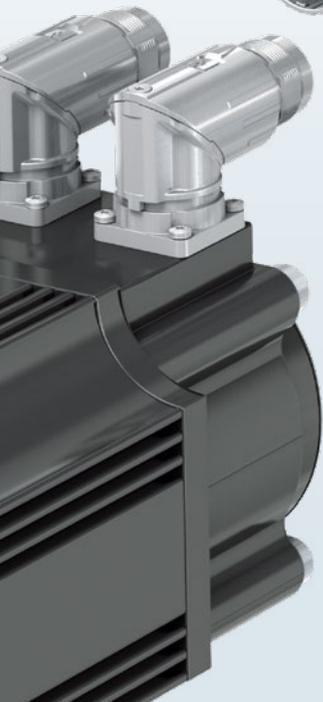

## ■ POWER

### Power connectors up to 150 A/630 V

- Sizes M17, M23, M40, and M58
- 3+PE up to 5+3+PE
- Connection cross-sections up to 50 mm<sup>2</sup>
- IP67 degree of protection
- Plastic-molded designs

**i** Web code: #0255

# Unrivalled variety for signals, data, and power

The circular connector portfolio ranges from signal connectors in sizes M17 and M23 and hybrid connectors to power connectors in sizes M17 to M58 for a maximum of 150 A and 630 V.

The wide range of designs and pin assignments facilitates consistent solutions for transmitting signals and data as well as supplying power to electrical devices and drives. For smaller sizes and connectors for data transmission up to 10 Gbps, go to [phoenixcontact.com](http://phoenixcontact.com)

## Sustainable and future-proof

Phoenix Contact is empowering sustainable products and already offers a comprehensive portfolio which is produced in accordance with future EU directives, with a reduced lead content below 0.1%. This corresponds to RoHS II without Exemption 6c.

You will find items that comply with the future EU directive and have a maximum lead content of 0.1% on our website via the standard item, using the filter “Lead content (EU-RoHS) – lead-free (Pb < 0.1%)”, or by entering the respective web code in the search field.

 Web code: #2904

new

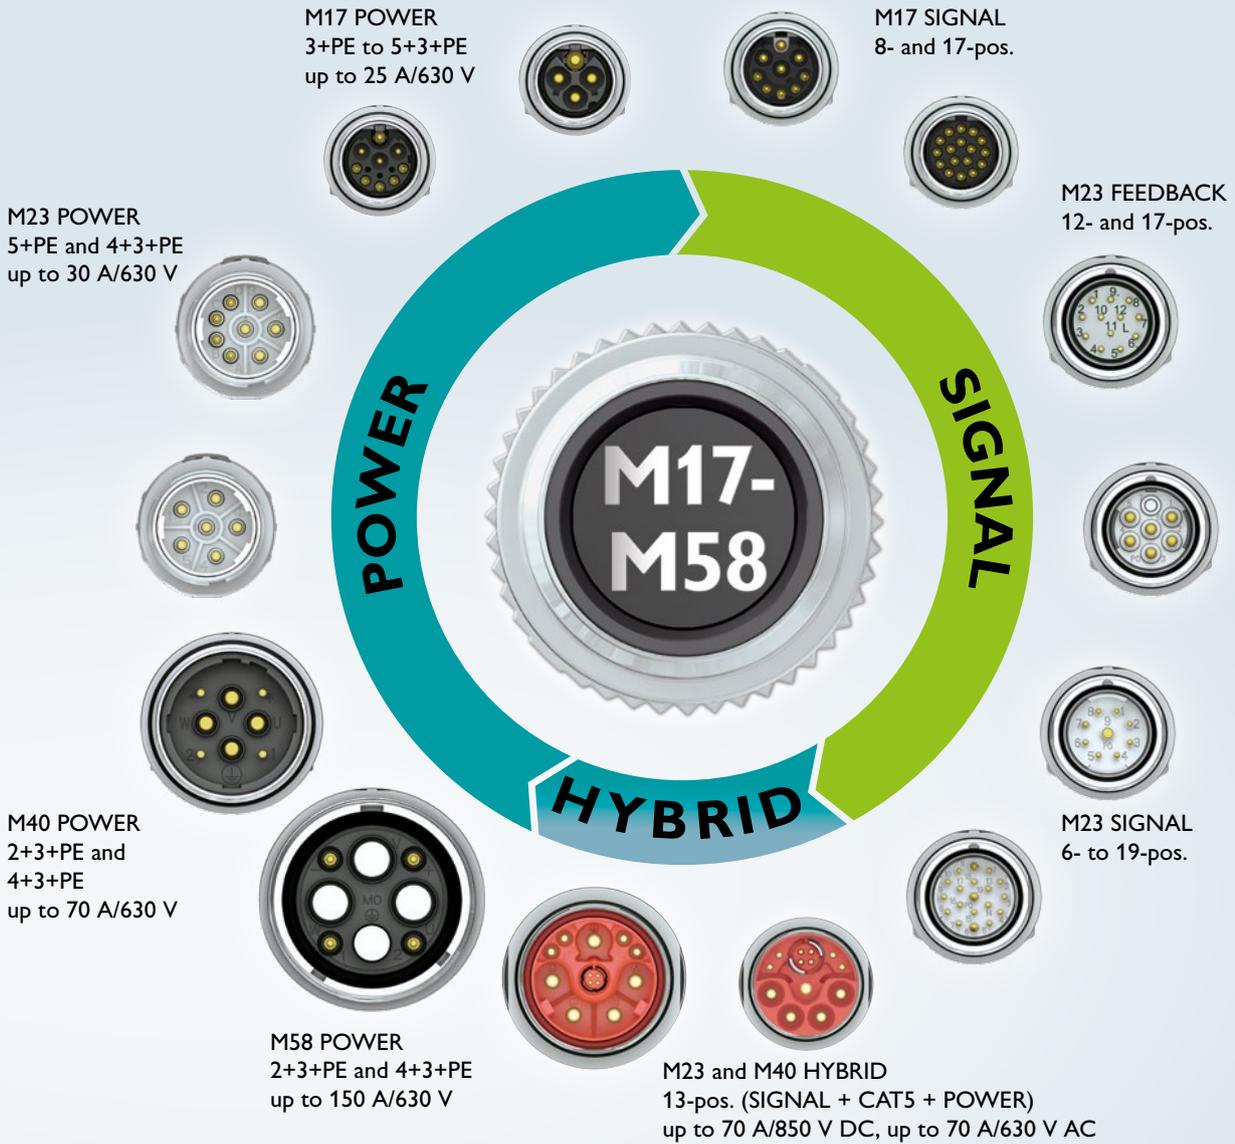

RoHS

Pb < 0,1%

Wide range of pin assignments

Consistent solutions for signal, data, and power transmission

### Compact device connection

Straight front or rear mounting and angled, rotatable with infinitely variable adjustment of the outlet direction

### Flexible cable connection

Cable and coupler connectors for secure cable assembly

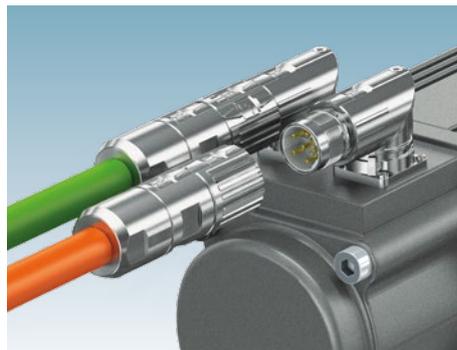

### Easy cabling

Preassembled cables in straight and angled design with signal, power, and hybrid pin assignments

# Cross-manufacturer compatible connectors – M17 to M40 PRO

Cross-manufacturer compatible: signal and power connectors from the M17 to M40 PRO series offer consistent solutions for signal and power transmission. With the unique ONECLICK fast-locking system, you can connect your device quickly and securely.

## Available worldwide

Cross-manufacturer compatible solutions for standard and fast-locking systems

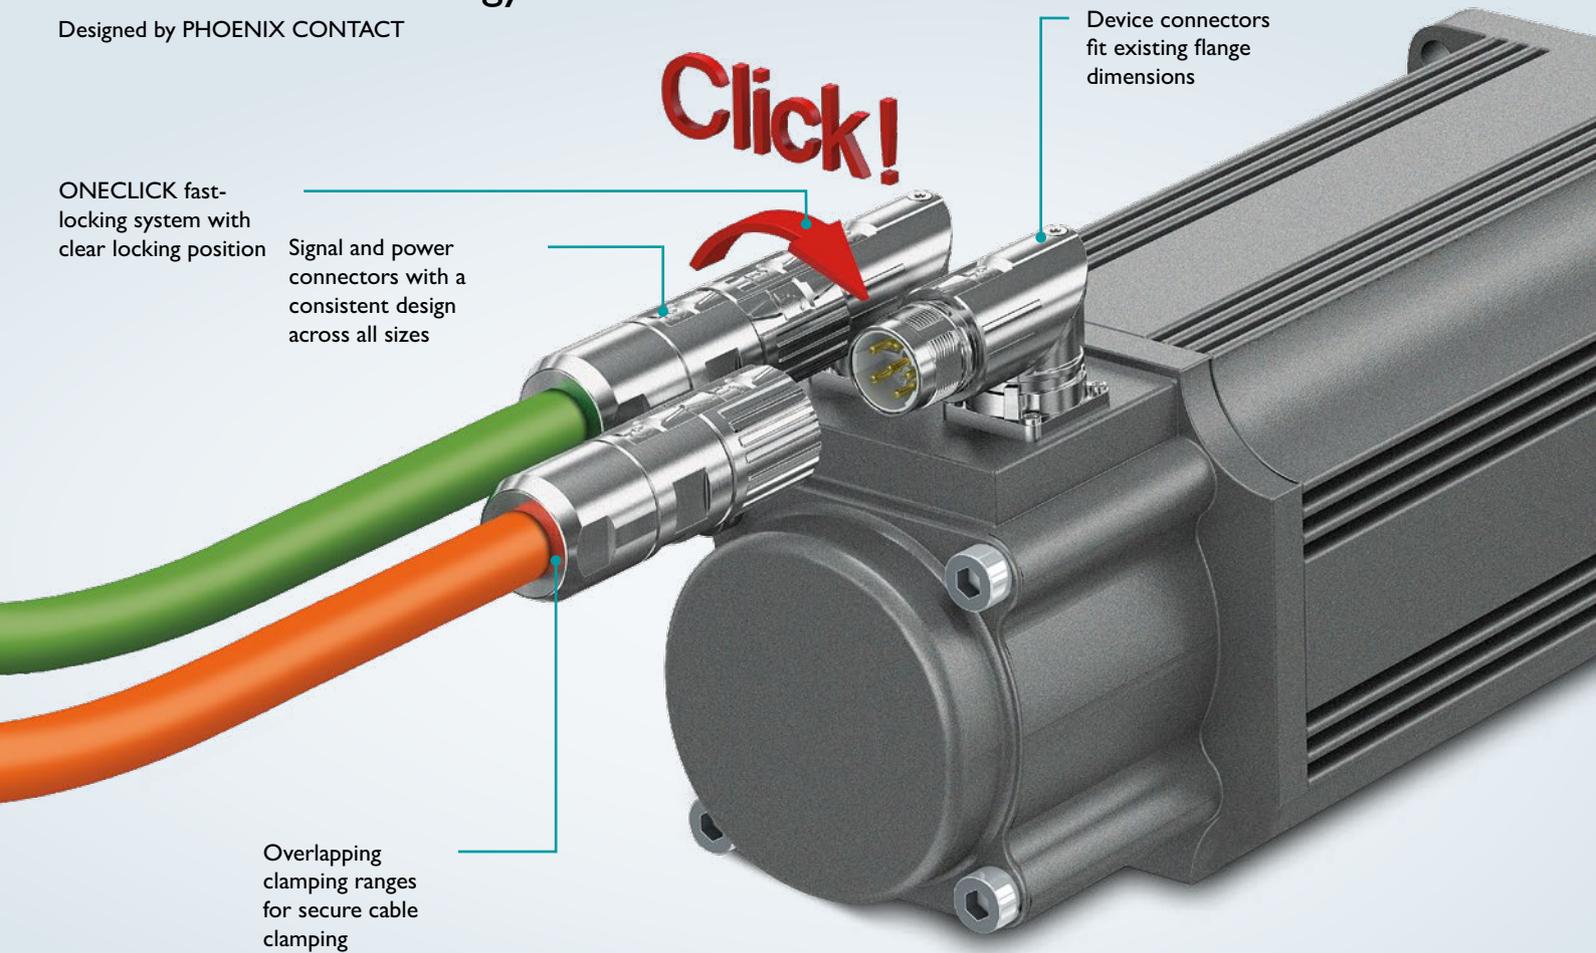

## Secure locking

ONECLICK fast-locking system with an optically, haptically, and acoustically clear locking position

# ONECLICK Technology

Designed by PHOENIX CONTACT

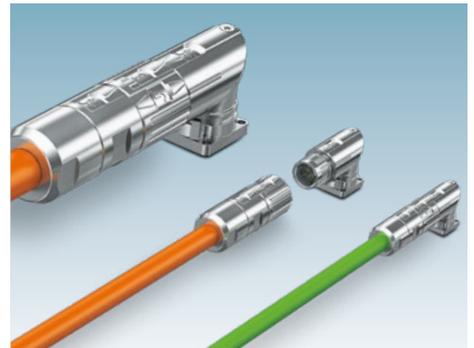

## Designed for easy assembly

Easy and reliable shield connection for cost-effective cable assembly

## Vibration-resistant connection

Vibration brake in the cable connector for reliable connection under the harshest conditions

## Consistent design

Modern, consistent design for highly convenient operation

# M17 and M23 signal connectors

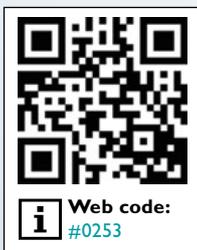

The M17 and M23 circular connectors cover numerous industrial signal applications. They also satisfy requirements relating to tightness of seal, vibration resistance, and EMC protection. The 6- to 19-pos. circular connectors are supplemented by a complete range with plastic-molded designs.

## SIGNAL

Signal connectors up to 19-pos.

- 6- to 19-pos.
- Sizes M17 and M23
- All housings can be fitted with pin or female contacts
- Connectors with external thread suitable for standard and SPEEDCON locking
- EMC protection
- IP67 degree of protection
- Plastic-molded designs

## Your advantages at a glance

### Reliable transmission

All connectors with 360° shield connection

### Various connection methods

Crimp connection, solder connection, and device connectors with additional solder-in connection

### Visual color coding

Connection errors are prevented with customer-specific marking of the connectors with color rings

### High contact density

6- to 19-pos. for a variety of signal and feedback applications

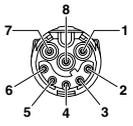

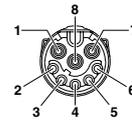

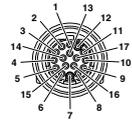

### Easy mounting and removal

1. Insert M23 contact carrier from connection side and snap into place
2. Attach removal tool on the plug side
3. Release contact carrier

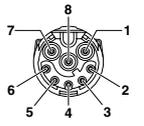

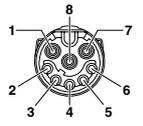

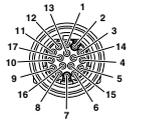

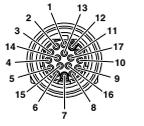

### Flexible assembly

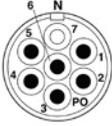

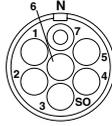

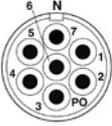

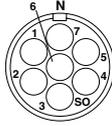

All housings can be fitted with pin or female contacts

# M23 and M40 hybrid connectors

The M23 and M40 hybrid connectors from Phoenix Contact allow you to reliably transmit signals, data, and power in a single connector.

The hybrid connectors are highly flexible: The CAT5 data interface can be replaced by four signal contacts. As a result, a total of eight contacts are available for transmitting signals.

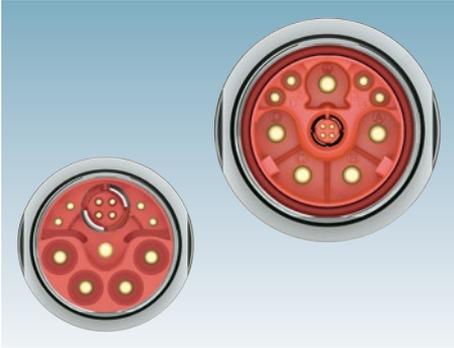

## HYBRID

Hybrid connectors  
up to 70 A/850 V DC/630 V AC

- Transmission of signals, data, and power in a single connector
- Sizes M23 and M40
- Connectors with external thread suitable for standard and SPEEDCON locking
- CAT5 interface, alternative: four additional signal contacts
- Connection cross-sections up to 16 mm<sup>2</sup>
- Plastic-molded designs

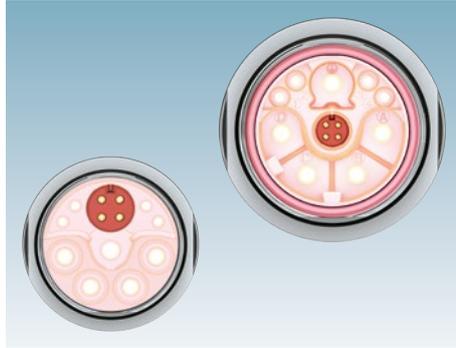

## Your advantages at a glance

### Reliable data transmission

Pin assignments 4+4+4+PE: reliable transmission of data (CAT5), signals, and power

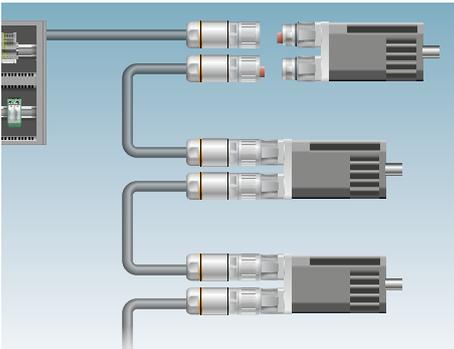

### Additional flexibility

Pin assignments 8+4+PE: four additional signal contacts by replacing the CAT5 interface

### Reliable connection

M40 with mechanical coding for all pin assignments reliably prevents connection errors

### Reduced cabling effort

Daisy chain application with hybrid connectors for distributed drive concepts

### Fast locking

Faster connection time with optional SPEEDCON fast-locking system, secure, and vibration-resistant

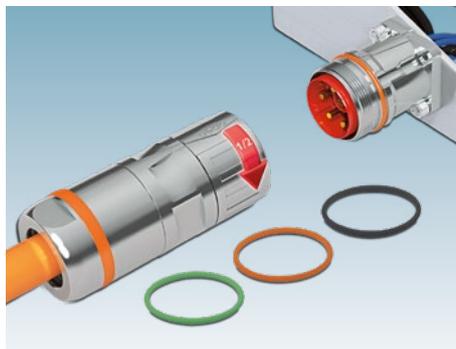

### Variable assembly

All housings can be fitted with pin or female contacts

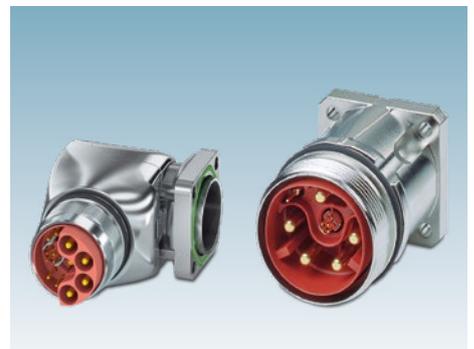

### Preassembled M23 cables

Angled design with adjustable cable outlet direction, customer-specific assemblies and cable lengths available

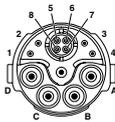

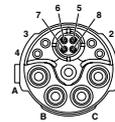

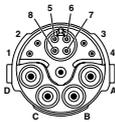

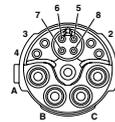

### Visual color coding

Connection errors are prevented with customer-specific marking of the connectors with color rings

### Versatile device connection technology

Straight and angled, rotatable device connectors with infinitely variable adjustment of the outlet direction up to 310°

# M17 to M58 power connectors

Power connectors from Phoenix Contact are the right choice for the easy and time-saving connection of electrical drives at transmission capacities up to 150 A/630 V.

Characteristic features include the lateral, radial clip-in of contacts into the contact carrier and the elegant shield. This saves installation time and ensures fast and secure connection.

## POWER

### Power connectors up to 150 A/630 V

- Sizes M17, M23, M40, and M58
- Connectors with external thread suitable for standard and SPEEDCON locking
- 3+PE up to 5+3+PE
- Connection cross-sections up to 50 mm<sup>2</sup>
- IP67 degree of protection
- Plastic-molded designs

## Your advantages at a glance

### Fast installation

Lateral clip-in of contacts saves installation time

### Simple shield

Protruding braided shield is simply screwed in, 360° shield connection

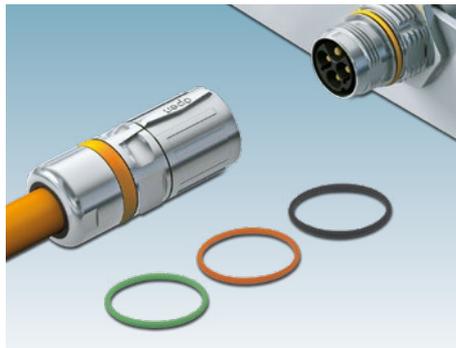

### Flexible connection

Numerous housing designs for the device and cable side in sizes M17 to M58

### Flexible cable outlet

Rotatable device connectors with infinitely variable adjustment of the outlet direction up to 310°

### Visual color coding

Connection errors are prevented with customer-specific marking of the connectors with color rings

### Simple device integration

Device connectors for front and rear mounting for various installation situations

# Excellent services

Throughout your development process, Phoenix Contact will provide excellent services that make the difference. Discover how modern configurators, comprehensive technical data, and free product samples can make your daily work easier. As your partner, we will support you in the design-in process all the way to the development of customized connection and housing solutions.

## The easy way to more choice

Choose online from 60,000 products and find the right solution quickly:

- Intuitive filter and search functions
- Comprehensive technical data and downloads such as drawings and 3D models
- Personal on-site consultation

## The easy way to more individuality

Customize your products with colors, printing, and special designs:

- Customer-specific versions
- Customized new products
- Intuitive online configurators

Simple selection using filters and technical data

There is a separate detail page for every product

A data sheet is available to download for every item

With our global network, Phoenix Contact is always nearby

Device connection technology can be comprehensively configured

Housing parts and connection technology are easy to configure

Cable and assembly systems can be matched easily

Phoenix Contact supports you from the initial idea right through to series production

Further information on Phoenix Contact services: Simply enter the web code into the search field on our website.

 Web code: #2594

## Excellent services

Phoenix Contact supports device designers with excellent services, even beyond the design-in process. Benefit from flexible procurement and global availability of our items. As your expert partner, our experts will keep you up to date on the latest technologies and trends.

### **The easy way to more flexibility**

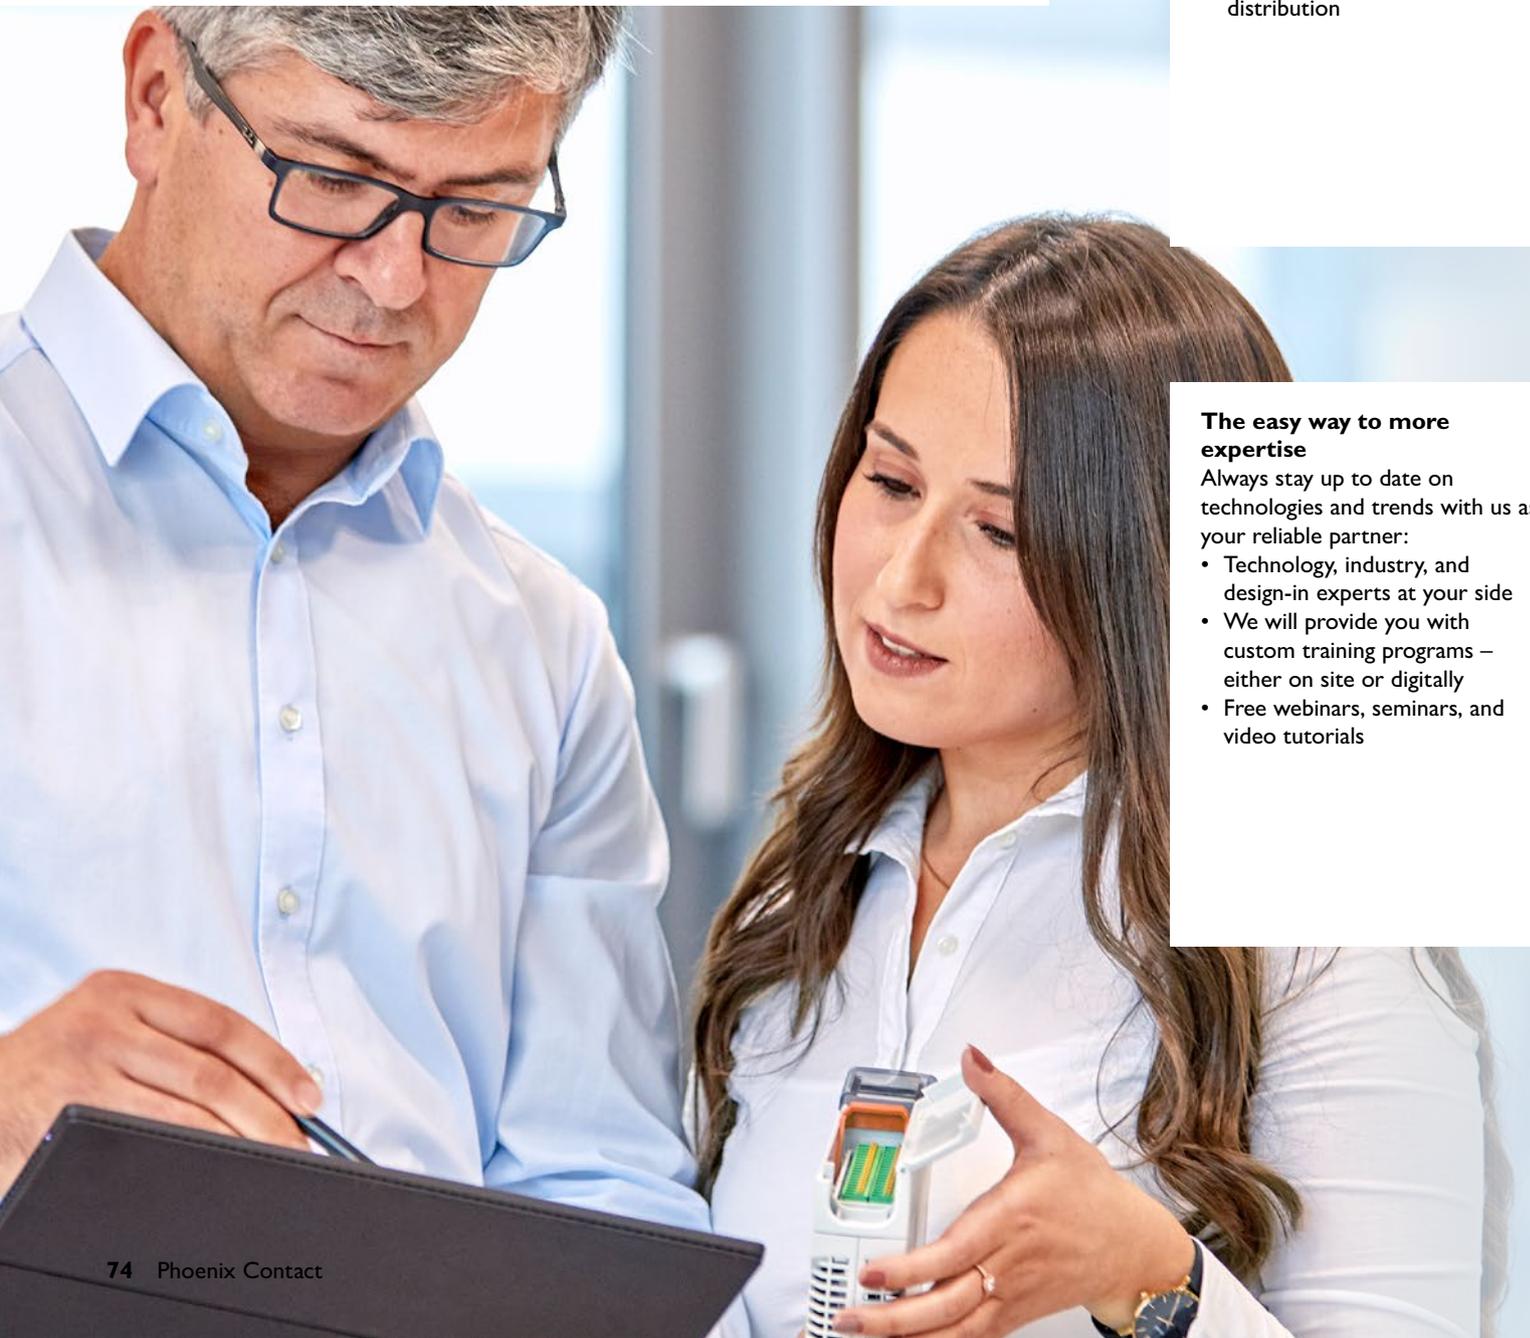

Use our different procurement channels and benefit from worldwide availability:

- All products can easily be ordered online
- Free online sample service
- Globally reliable logistics through direct shipping or distribution

### **The easy way to more expertise**

Always stay up to date on technologies and trends with us as your reliable partner:

- Technology, industry, and design-in experts at your side
- We will provide you with custom training programs – either on site or digitally
- Free webinars, seminars, and video tutorials

Our online sample service is available in a large number of countries

Find the product you want quickly with intuitive filters

Product samples are available with free shipping

Reliable logistics worldwide

Keep up to date on new products, trends, and technologies

We will provide you with custom training programs – either on site or digitally

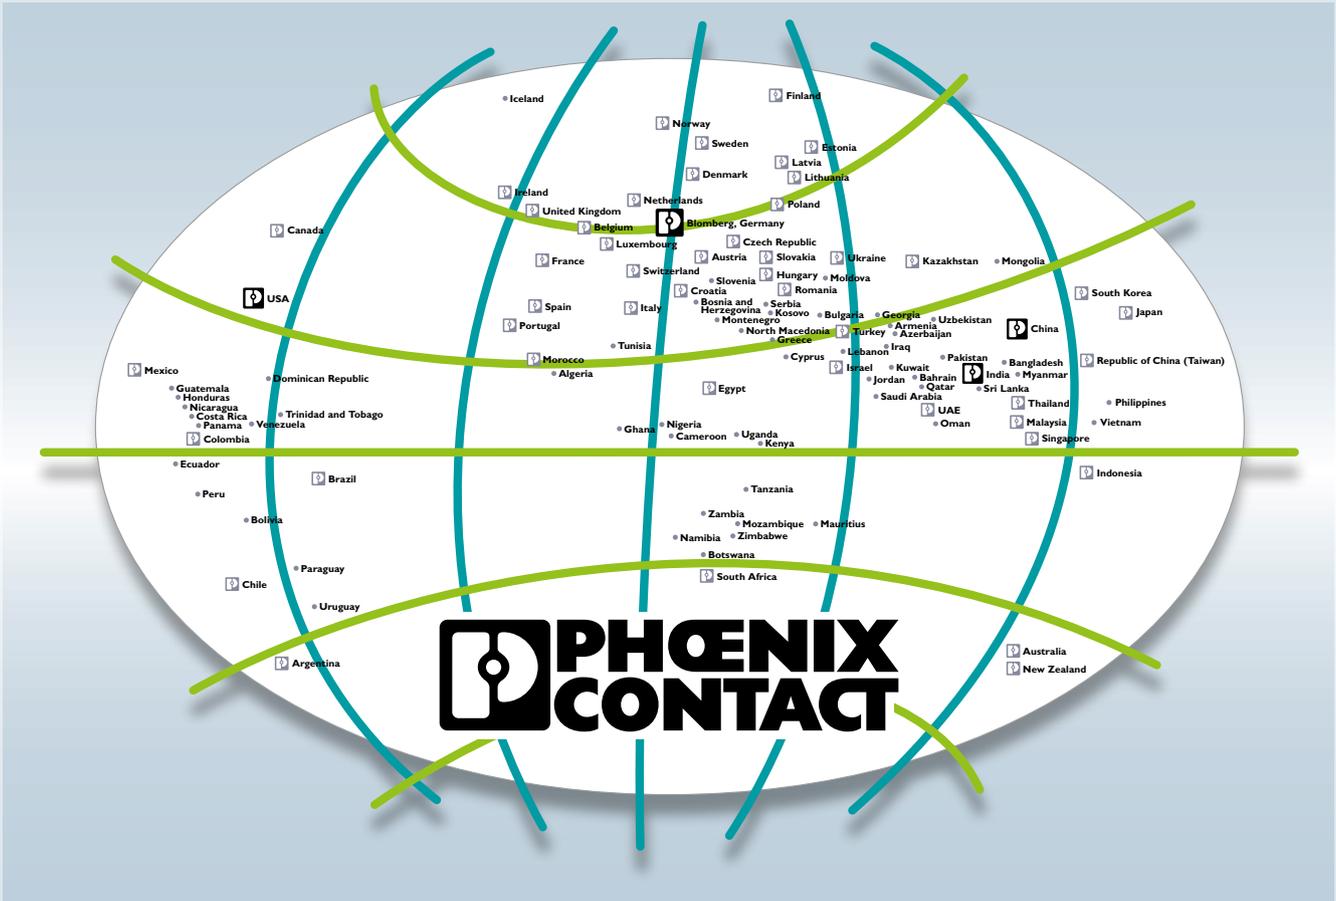

Stay updated via the Phoenix Contact apps and the Phoenix Contact YouTube channel

Remain reliably updated with the Phoenix Contact newsletter

Further information on Phoenix Contact services: Simply enter the web code into the search field on our website.

 Web code: #2594

## Open communication with customers and partners worldwide

Phoenix Contact is a global market leader based in Germany. We are known for producing future-oriented products and solutions for the electrification, networking, and automation of all sectors of the economy and infrastructure. With a global network reaching across more than 100 countries with over 22,000 employees, we maintain close relationships with our customers, something we believe is essential for our common success.

Our wide range of innovative products makes it easy for our customers to implement the latest technology in a variety of applications and industries. This especially applies to the target markets of energy, infrastructure, industry, and mobility.

You can find your local partner at  
[phoenixcontact.com](https://www.phoenixcontact.com)
